

AMWC 2025 Preview – Table of Contents

General Overview and Conference Themes	<u>3-5</u>
 Noteworthy Scientific presentations at AMWC'25 	6-39
Key Topics From Notable Presentations	7-8
Focus of Key Sponsored Symposia at AMWC'25	9-13
Notable Presentations at AMWC'25	14-19
Key Sponsored Symposia Information	20-39
Noteworthy AI / ML Presentations	40-45
Key AI / ML Themes	41-42
Key AI/ML Presentations Information	43-45
• Get in touch with LucidQuest	46

 Global Participation & Scientific Expertise: Over 16,000 delegates from 140+ countries and 400+ expert speakers, will highlight AMWC as a key platform for global discourse in aesthetics and anti-aging

 Comprehensive Scientific Program: 175+ sessions and 95 workshops, focusing on clinical, translational, and emerging research across dermatology, endocrinology, immunology, and regenerative medicine

Industry Advancements: 900+ global companies showcased groundbreaking devices, and cosmeceuticals, demonstrating cuttingedge developments in the field

 Pre-Congress Engagement: The Advanced Facial Aesthetic Masterclass attracted significant clinician participation, providing indepth insights into current aesthetic practices

 Cross-Disciplinary Integration: Collaboration between dermatologists, plastic surgeons, immunologists, and regenerative medicine experts to address multifaceted challenges in aging and immunological disorders

Innovation in Treatment Approaches: A focus on novel immunological treatments for aesthetic applications, blending beauty and immunology in a rapidly evolving landscape

AMWC 2025 - Conference Themes (1/2)

- Immuno-Aesthetics Interface: Exploration of immune modulation in skin aging, integrating aesthetic therapies to manage immune-driven skin changes and enhance results
- Inflammaging Mechanisms: Role of chronic inflammation in skin aging, linking systemic inflammation to cutaneous aging and related disorders

- Allergy in Aesthetic Practice: The focus will be on managing hypersensitivity reactions to injectables and fillers, emphasizing future prevention strategies and response protocols in aesthetic practices
- Microbiome Modulation: Will target skin and gut microbiota manipulation to optimize treatment outcomes in skin aging and immune-mediated conditions
- Autoimmune Skin Disorders: Advances in aesthetic-compatible treatment of autoimmune skin diseases like lupus, vitiligo, and dermatomyositis in aging patients

AMWC 2025 - Conference Themes (2/2)

- Respiratory Immunity & Aging: Updates on effects of aging on mucosal immunity, focusing on its influence on asthma severity and related treatments
- Regenerative Medicine in Immunology: Highlights on the use of stem cells, growth factors, and tissue engineering in rejuvenating aging skin and treating immunological disorders

• AI in Aesthetic Medicine: The role of artificial intelligence in diagnosing, predicting treatment outcomes, and personalizing aesthetic procedures for improved patient care will be discussed

Key Topics From Notable Presentations (1/2)

Advancements in Anti-Aging Treatments:

 The conference will highlight innovative skin rejuvenation techniques, including HA fillers, PDRN mesotherapy, and calcium hydroxyapatite for neck and face treatments. New combination therapies, lasers, and non-invasive procedures will be supported by clinical trials showcasing their efficacy and safety

Regenerative and Stem Cell Therapies:

 Stem cell and regenerative immunotherapies will be a major focus, with presentations on their role in reversing age-related diseases and biological aging. Research on the potential of stem cells to rejuvenate both skin and internal systems will be explored in clinical settings

Key Topics From Notable Presentations (2/2)

Longevity, Preventive Medicine, and Cognitive Aging:

 Longevity medicine strategies will cover interventions to extend lifespan, focusing on genetics, lifestyle factors, and early treatments.
 Cognitive decline and Alzheimer's prevention will be examined, along with trials on neuroprotective therapies and biomarkers of aging

Biohacking, Vascular Health, and Molecular Approaches:

 Biohacking strategies, including intermittent hypoxia and metabolic health optimization, will be explored as tools for anti-aging. Vascular aging and genetic therapies, such as the aging suppressor protein Klotho and superoxide dismutase treatments, will be featured, with a focus on their clinical applications

Focus of Key Industry Sponsored Symposia at AMWC 2025 (1/5)

ALLERGAN AESTHETICS:

- Focus Areas: Signature Approach to Aesthetic Enhancement
- Sessions will focus on the new Signature approach for designing patients' looks, including live assessments for patient-centric excellence, MD Code, and their impact on social perception and longevity-related skin aging

APTOS:

- Focus Areas: Bio-stimulation and Structural Support for Facial & Body Enhancement
- Aptos will explore advanced facial techniques using Calcium
 Hydroxyapatite (CaHA) for bio-stimulation and volume enhancement,
 along with the Brazilian 3S technique for gluteal enhancement and
 upper facial quadrants structuring

- Focus Areas: Weight Loss and Medication-Driven Aesthetic Changes
- Galderma will explore aesthetic changes driven by medication-related weight loss, discussing how these changes can be addressed through individualized aesthetic treatment algorithms for optimal results

Focus of Key Industry Sponsored Symposia at AMWC 2025 (2/5)

ASTERASYS:

- Focus Areas: Coolfase Technology and Radiofrequency Innovation
- ASTERASYS will unveil Coolfase, a revolutionary technology for facial skin rejuvenation, along with its impact on monopolar radiofrequency, micro-focused ultrasound, and combining treatments for superior patient outcomes and satisfaction

CYNOSURE LUTRONIC:

- Focus Areas: Multilayer Skin Rejuvenation
- Focus will be on innovative skin rejuvenation using Ultra Skin Solutions, focusing on the multi-layering approach for effective and long-lasting skin improvement across various treatment areas.

DEXLEVO:

- Focus Areas: Liquid Polycaprolactone (PCL) in Facial Rejuvenation
- Dexlevo will showcase clinical applications and the remarkable efficacy of liquid PCL in facial rejuvenation, including case studies and the optimal dosage for achieving lifting, firmness, and skin revitalization.

Focus of Key Industry Sponsored Symposia at AMWC 2025 (3/5)

PHARMA RESEARCH PRODUCTS:

- Focus Areas: Full Face Regeneration with Polynucleotides
- Pharma Research Products will focus on using Polynucleotides and PDRN in regenerative medicine, including full-face rejuvenation, specifically targeting the periorbital area, and optimizing patient satisfaction with these advanced techniques

FILLMED:

- Focus Areas: Patient-Centric Lip Enhancement Techniques
- Experts will discuss advanced lip enhancement techniques tailored to different patient needs, including those for middle-aged Asian women and men, redefining masculinity through aesthetic lip treatments and focusing on the science behind the lip menu

HEALUX:

- Focus Areas: PDO Thread Contouring for Facial & Cervical Areas
- HEALUX will showcase PDO precision techniques for reshaping the face and optimizing chin and neck enhancement using i-THREAD Magic Plus and COG threads, focusing on non-invasive lifting techniques for sagging jowls

Focus of Key Industry Sponsored Symposia at AMWC 2025 (4/5)

KORU PHARMA:

- Focus Areas: Scalp Health and Rejuvenation
- Koru Pharma will present innovative scalp rejuvenation techniques, focusing on revitalizing scalp wellness with H BLOOM. Live demonstrations will showcase the science behind optimal scalp health for improved hair vitality

SKINCEUTICALS:

- Focus Areas: Skincare Integration with Energy-Based Devices
- Session will highlight the benefits of integrating their advanced skincare products with energy-based devices like non-ablative fractional lasers. Sessions will demonstrate the cumulative impact on improving skin tone and quality

LABORATORIES VIVACY:

- Focus Areas: STYLAGE® Dermal Fillers for Facial Contouring
- Science behind STYLAGE dermal fillers, including its unique rheology for safe and impactful facial contouring, with an emphasis on mid-face and jawline treatments for enhanced aesthetics will be highlighted

2025

Focus of Key Industry Sponsored Symposia at AMWC 2025 (5/5)

TEOXANE:

- Focus Areas: Deep Volumization and Skin Quality
- Discussions will explore techniques for deep volumization using their advanced dermal fillers, alongside discussions on improving skin quality through comprehensive treatments aimed at both the surface and deeper layers of the skin

SKYMEDIC:

- Focus Areas: Facial Feminization and Masculinization Techniques
- Presentations will explore advanced techniques in facial feminization and masculinization, focusing on tailored injectable treatments that create harmonious facial features for both men and women

SOLTA:

- Focus Areas: Non-Invasive Skin Tightening & Brightening
- Solta will discuss the benefits of combining Thermage and Clear+Brilliant for tightening and brightening skin, showcasing case studies demonstrating how these non-invasive solutions can benefit aesthetic practices

Notable Presentations information at AMWC 2025

Notable Presentations Information at AMWC '25 Anti Aging (1/5)

Date	Author	Title Title
27 Mar 2025	Jesper THULESEN	Facial aging and maximizing treatment strategies with HA-fillers
27 Mar 2025	Theodora MANTZOURANI	Skin as the biggest endocrine organ: An endocrine approach to skin anti-aging
27 Mar 2025	Jeanine DOWNIE	Treating and managing skin of color patients with toxin, filler, chemical peels, laser, noninvasive fat melting, skin tightening, and radiofrequency microneedling
27 Mar 2025	Claude CHAUCHARD	What Kind Of Advanced Technologies In Anti-Aging Medicine Can We Expect In The Near Future?
27 Mar 2025	Sara KHOSHNAW	Localization and Staging of Vascular Adverse Events After Facial Fillers: A Detailed Assessment
27 Mar 2025	Bob KHANNA	Optimising Health and Well-Being to Delay the Aging: Process
27 Mar 2025	Julia TRAWINSKA- JEDLINA	Addressing Inflammation And Premature Aging - Multifactorial Approach
27 Mar 2025	Paolo BONAN	Managing Laser and Device Complications
27 Mar 2025	Christophe DE JAEGER	New Updates on Telomere Biology: Clinical Applications

Notable Presentations Information at AMWC '25 Anti Aging (2/5)

Date	Author	Title Title
27 Mar 2025	Roni MOYA	Stem Cells And Regenerative Immunotherapies
27 Mar 2025	Richard SIOW	Longevity Preventive Medicine Across the Lifespan
27 Mar 2025	Robyn SIPERSTEIN	Injectable neck treatments: Review of neck anatomy & treatment with HA Filler, CAHA, and Neuromodulators
27 Mar 2025	Lanna CHEUCK	Revitalizing the neck: PDRN mesotherapy for targeted, lasting skin rejuvenation
27 Mar 2025	Jonathan KADOUCH	Multimodal approach for treatment of jowls and submental fullness (combining lipo, RF, deoxycholic acid and fillers)
27 Mar 2025	Sofia RUIZ DEL CUETO	Lifting the Lower Third of The Face and Neck with Botulinum Toxin A
27 Mar 2025	Jamuna PAI	Non surgical neck rejuvenation: enhancing contour, texture, and tone
27 Mar 2025	Yates Yen-Yu CHAO	Comparing HA and CaHA injectables: Clinical insights into horizontal neck line treatments
27 Mar 2025	Valeria CAMPOS	Neck & Décolletée - New approach for skin rejuvenation

Notable Presentations Information at AMWC '25 Anti Aging (3/5)

Date	Author	Title
27 Mar 2025	Ciara ABBOTT	Calcium hydroxylapatite for the neck
27 Mar 2025	Gabriela Andrea CELLA	Neck & Décolleté: PLLA and Hyaluronic Acid in the Same Session
27 Mar 2025	Ciara ABBOTT	LIVE DEMO - Calcium hydroxylapatite for neck
28 Mar 2025	Arnaud LAMBERT	LIVE DEMO - An Advanced Next-Generation Broadband Light with Pulse Placement Technology for Treatment of Photoaging Skin(Unrestricted financial support from Sciton)
28 Mar 2025	Bruno DONATINI	Salivary Calprotectin: A New Marker of Aging, Alzheimer's, or Chronic Severe Inflammation
28 Mar 2025	Peter C. KONTUREK	Multidimensional Impact of Climate Change on Gut Microbiota, Digestive Health, and Aging
28 Mar 2025	Diane DUNCAN	Beyond the gym: treating sarcopenia in aging patients
28 Mar 2025	Dagne PUPO	Senolitics and Anti - Aging Medicine – Is not Just About Expanding Lifespan, but to Gain Quality of Life

Notable Presentations Information at AMWC '25 Anti Aging (4/5)

Date	Author	Title
28 Mar 2025	Luigi MILELLA	Bitter Receptors And Aging
28 Mar 2025	Eugenio Luigi IORIO	Superoxide Dismutases: Old Enzymes for New Indications in Successful Aging
28 Mar 2025	Ascanio POLIMENI	Aging Suppressor Protein Klotho: A Promising Marker of Biological Age and Tool to Monitor Lifestyle Interventions
29 Mar 2025	Manuel J. CASTILLO GARZON	Cognitive Decline: Early Diagnosis, Prevention And Treatment As An Anti-Aging Intervention
29 Mar 2025	Hidekazu YAMADA	Epigenetics and Anti-Aging Medicine: New Perspectives from Biological Age to Wellbeing Capital
29 Mar 2025	Ivan IBANEZ	Clinical Preconditioning of Intermittent Hypoxia: Therapeutic Potential in Anti-aging and Longevity
29 Mar 2025	Rafik GOUNANE	Anti Aging Strategies with Berberine and Beyond
29 Mar 2025	Jana JANOVSKA	Glycation and biologic clock: Glycation's role in aging

Notable Presentations Information at AMWC '25 Anti Aging (5/5)

Date	Author	Title
29 Mar 2025	Nikolas PSATHAS	The Rise of NAD+ Injectable Therapy: Revolutionizing Anti-Aging Strategies
29 Mar 2025	Zulya MAIZETOVA	Mitochondria and Aging
29 Mar 2025	Vittorio CALABRESE	Hormetic Neuronutrients in Anti-Aging Medicine: From Bench to Clinics
29 Mar 2025	Denys COESTER	Longevity and aesthetics: How Biohacking is redefining Anti-Aging?
29 Mar 2025	Alaedine BENANI	The Role of AI in the Study of Vascular Aging
29 Mar 2025	Olivier DOURTHE	Anti-Aging and Imaging: Follow Up Your Treatment and Prevent
29 Mar 2025	Aris STERODIMAS	Next-Generation Body Contouring: Leveraging Stromal Enriched Lipograft & Advanced Emerging Technologies for Enhanced Precision

Key Industry Sponsored Symposia Information

2025

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (1/19)

Date	Sponsor	Title
27 Mar 2025	ALLERGAN AESTHETICS	Design your patients' look with the NEW Signature approach
		AA Signature LIFT UP live assessment: Patient-centric considerations for excellence
		Unveiling DISTINCT DEFINITION: The AA Signature for the lower face
27 Mar 2025	APTOS	Calcium Hydroxiapatite - Rheological Factors for Optimal Results
		Facial Techniques for Bioestimulation, Structural Support and Volume Enhancemente Using Calcium <u>Hydroxiapatite</u>
		Body Filling – Rheological Factors for Optimal Results with Hyaluronic Acid
		The Brazilian 3S Technique for Gluteal Enhancement: Support, Stimulation & Shape CaHA and HA

Date	Sponsor	Title
27 Mar 2025	ASTERASYS	Coolfase Unveiled: Revolutionary Technology and Its Clinical Applications for Facial Skin Rejuvenation
		K-Lift Protocol and Coolfase's Impact on the Evolution of Monopolar Radiofrequency
		Real-world applications of Coolfase, showcasing exceptional results and strategies for success
		Assessment, clinical outcomes & patient satisfaction on Coolfase treatment for middle and lower face laxity
27 Mar 2025	ASTERASYS	Clinical Breakthrough Applications With Patented Pen-Type MMFU
		Synergistic Power: Combining Liftera with Hyaluronic Acid and NAFL 1550 for Superior Outcomes
		Microfocused Ultrasound Redefined: Liftera's Breakthrough Advancements in Safety and Efficacy Across Clinical Indications

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (3/19)

Date	Sponsor	Title
27 Mar 2025	CAREGEN	Session for Peptide Based Hair Filler, Weight Loss and Muscle Mass
27 Mar 2025	CEBELIA	Regulatory peptides and skin homeostasis in aesthetic medicine.
27 Mar 2025	CYNOSURE LUTRONIC	Differentiate your practice with Ultra Skin Solutions: Innovative multilayer skin rejuvenation
27 Mar 2025	DERMACEUTIC	Innovation in Deep Peels: The science of Revolutionary Skin Renewal
27 Mar 2025	DERMAPENWORLD	Exosomes Integration, Optimisation of Skin Regenerative Science. Not All Exosomes are Equal.
27 Mar 2025	DEXLEVO	Diverse Clinical Applications and Remarkable Efficacy of Novel Liquid Polycaprolactone (PCL)
27 Mar 2025	DEXLEVO	Possibilities of Liquid PCL GOURI: Flexible and Powerful Rejuvenating Tool

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (4/19)

Date	Sponsor	Title
		Lips through patient centric approach
	EILLMED	Middle-aged Asian women: a tailored lip approach
27 Mai 2023	27 Mar 2025 FILLMED	Lips for Him: redefining masculinity & beauty
		Science behind the lip menu
27 Mar 2025	GALDERMA	Aesthetic Changes in Medication-Driven Weight Loss: The Algorithms
27 Mar 2025	GALDERMA	GAIN Experts Dialogue: Defining the Ideal Lips
27 Mar 2025	HYALURE	Hyalure Erelle "Bone and Fat Pad Restoration using CMC combined with HA in Facial Rejuvenation"

Date	Sponsor	Title
27 Mar 2025	HEALUX	PDO Precision: Reshaping the Face with Strategic Contouring and Lifting
		Cervicofacial Contour: The optimization of PDO Threads and Traction Techniques for Chin and Neck <u>Enhancement</u>
		RC CONTOUR: Technique to treat Sagging Jowls with i-THREAD Magic Plus and COG
27 Mar 2025	KORU PHARMA	Scalp Vitality Redefined: The Science Behind Optimal Scalp Health
		Transforming Scalp Health: Live Demonstration of H BLOOM
		Revitalizing Scalp Wellness: Expert Insights and Real-life Cases
		Innovative Scalp Rejuvenation: Unveiling the Power of H BLOOM

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (6/19)

Date	Sponsor	Title
27 Mar 2025	KSURGERY MED	Smart Butterfly Butt with Micromolecular Cross-linked Hyaluronic Acid
27 Mar 2025	LABORATORIES HYAMED	Global Insights: Hyamax Dermal Filler Innovations
		<u>Full Face Regeneration with Polynucleotides – an Australian Experience</u>
27 Mar 2025 PHARMA RESEARCH PRODUCTS		The Double Helix Duo - DOT™ Polynucleotide REJURAN and PDRN in Regenerative Medicine
	Full Face Rejuvenation with Polynucleotides with a Special Focus on Treating Periorbital Skin in a Caucasian Population	
27 Mar 2025	REVITACARE	Realistic future of anti-ageing: trends versus reality for effortless beauty
27 Mar 2025	SESDERMA	EXOSOMES: PAST INSIGHTS, PRESENT ADVANCES, FUTURE POTENTIAL

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (7/19)

Date	Sponsor	Title
27 Mar 2025	SKINCEUTICALS	Advancing The Power of Aesthetic Skincare
		Combining the Benefits of C E Ferulic with Non-ablative Fractional Laser for Diverse Skin Tones
		Improving Skin Tone and Quality the Accumulative Benefits of C E Ferulic with Energy-based Devices
27 Mar 2025	SKINCEUTICALS	Scientific Advances and Clinical Evidence in Integrated Skincare
		The Development and Application of Integrated Skincare in China
27 Mar 2025	SUNEKOS Injectable	The enhanced formula for skin renovation
27 Mar 2025	TEOXANE	JOURNEY THROUGH FACIAL LAYERS: FROM DEEP VOLUMISATION to SKIN QUALITY

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (8/19)

Date	Sponsor	Title
27 Mar 2025	ALLERGAN AESTHETICS	What the skin can tell us about age related-diseases and longevity
27 Mar 2025	BIOPARK MEDICAL	Mesopotamia & miRNA Product Presetation
27 Mar 2025	ExoCoBio x BENEV	<u>Dual-Wave RF Meets Cellular Cross-Talk: How SylfirmX + Exosomes Reprogram Skin & Hair Regeneration (25+ Clinical Validations)</u>
28 Mar 2025	SOFWAVE MEDICAL	Revolutionizing Non-Invasive Lifting & Volumizing: The Science & Technology Behind Sofwave's Breakthrough Ultrasound: Sofwave for volumizing, experience and case study
20 Mai 2023		Revolutionizing Non-Invasive Lifting & Volumizing: The Science & Technology Behind Sofwave's Breakthrough Ultrasound: Sofwave for lifting, experience and case study
28 Mar 2025	VAIM GLOBAL	Juvelook in Action: Enhancing Skin Quality and Collagen Regeneration in the Dermis
		Juvelook for Tear Trough: A Safe Path to Rejuvenation

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (9/19)

Date	Sponsor	Title
28 Mar 2025	ALLERGAN AESTHETICS	Impacting Emotion and Social Perception
	3 Mar 2025 ALLERGAN AESTHETICS	MD Codes™ and Allergan Aesthetics: a decade of excellence and a signature of success for the future
28 Mar 2025		MD Codes™ legacy: A paradigm shift in medical aesthetics
		Signature decoded: The power of the MD Codes™ and Allergan Aesthetics collection
28 Mar 2025	APTOS	To Lift or Not to Lift? Facelift After Threads
28 Mar 2025	BIOSCIENCE	Bio-Stimulation Meets Regeneration. The Ultimate Hybrid Filler: Genefill DX
28 Mar 2025	BTL AESTHETICS	A Breakthrough Non-Invasive Solution for the Periorbital Area

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (10/19)

Date	Sponsor	Title
	CROWN AESTHETICS	Advancing skin health through microbiome-centric skincare: A consensus on skin-specific probiotics
28 Mar 2025		Optimizing skin health with the benefits of BIOJUVE® and SkinPen® Precision in a combined regimen
		The safety of using microneedling with SkinPen® Precision on patients with acne vulgaris
28 Mar 2025	DERMAPENWORLD	Hair Restoration - The Regenerative Approach for Scalp and Hair Health.
28 Mar 2025	DERMAQUAL	The Science of Contouring: Advanced Methods for Chin & Body Sculpting
28 Mar 2025	DEXLEVO	Case Study on Optimal Application Dosage of Liquid PCL for Facial Rejuvenation
		Addressing Challenging Areas and Dermatological Conditions with Liquid PCL Biostimulator GOURI

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (11/19)

Date	Sponsor	Title
28 Mar 2025	FIDIA	<u>Live demo Tailoring Natural Beauty with Hyal-System: Combined injections to Correct, Lift, Biostimulate</u>
28 Mar 2025	FOTONA	Mastering Beauty: The Next Era of Non-Invasive Facial Rejuvenation
28 Mar 2025	KARISMA-TAUMED	Karisma Rh Collagen® and the Future of Bio-Stimulation: Cutting-Edge Approaches to Skin Aging
	LABORATOIRES VIVACY	RESHAPE with VIVACY: Precision & Balance in Modern Facial Contouring
28 Mar 2025		The Science of the STYLAGE® Unique Rheology for Impactful & Safe Results
		Safety of HA filler Injections and MRI Insights: Debunking Myths and Setting the Record Straight
		Shape & Stretch, Don't Fill: Mid-Face Contouring with STYLAGE® XXL and STYLAGE® XL

Date	Sponsor	Title
	MASTELLI	Polynucleotide Science: A Journey of Innovation from the 2007 First Study to the 2024 Consensus
28 Mar 2025		The Science of Skin Quality: Advanced Research and Injection Techniques
		Eye Rejuvenation with Plinest Eye: A Bio-Regenerative Solution for the Periocular Area
28 Mar 2025	MERZ AESTHETICS	The Evolution of Aesthetics: Foundations, Trends and Future
28 Mar 2025	MESOESTETIC PHARMA GROUP	Defining the future of HA fillers through neostimulation
		Neostimulation: the new mechanism of action of dual active fillers
28 Mar 2025	NEAUVIA	Awakening Physiological Bio-Stimulation: Tailored Combination Treatments Using PEG Fillers and Devices – Case Studies on Asian and Caucasian Patients

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (13/19)

Date	Sponsor	Title
20.14	NORDBERG MEDICAL	The Science of Regenerative Biomaterials - Introducing a new standard
28 Mar 2025		Injection techniques, best practices, and case reporting with JULÄINE™
20 May 2025	PHARMA RESEARCH PRODUCTS	Optimal Uses of Polynucleotides and Polydeoxyribonucleotides: Science vs Hype.
28 Mar 2025		Optimizing Patient Satisfaction with Rejuran i for the Periorbital Area and Rejuran HB for Facial and Neck Rejuvenation
28 Mar 2025	PROMOITALIA GROUP	Innovation and Science for Youthful Lips: Skinfill bacio, the future of biorestructuring products
		Minimal Invasive IntraLaser Technique for Skin Repositioning, Cellulite Reduction, and Body Contouring
28 Mar 2025	QUANTA SYSTEM	Two Revolutionary Laser Technologies for Active Acne Treatment & Skin Resurfacing

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (14/19)

Date	Sponsor	Title
28 Mar 2025	REGEN LAB	Use of platelet gel in surgery for infection prevention and wound healing
		Total face rejuvenation from tear trough to jawline contouring with Cellular Matrix
		Why PRP-HA combination is interesting for alopecia
28 Mar 2025	RELIFE	A holistic and regenerative approach: making beauty timeless
		Effortless structure, elegance and adaptability with Definisse ™ fillers
		Redefining anti ageing: From collagen stimulation to collagen modulation with Definisse ™
28 Mar 2025	SOLTA	Tackling Melasma & Acne Scarring

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (15/19)

Date	Sponsor	Title
28 Mar 2025	SUNEKOS Injectable	Rebuilding rather than destroying: the new safety and efficacy clinica
28 Mar 2025	WIQO	Glow & Lift: Discover Non-Invasive Regenerative Medicine in Action
28 Mar 2025	ExoCoBio x BENEV	Facial rejuvenation using thulium laser to deliver plant exosomes
	ULTRA V	PolyDioxanone(PDO) Biostimulator : Safe & Effective Collagen stimulation.
29 Mar 2025		ULTRACOL PDO Microsphere: Multi-layer for collagen stimulation with TIZs.
		PDO (ULTRACOL200) for Upper Eyelid Rejuvenation.
29 Mar 2025	TAUMED	Karisma Exo Care - Innovative Skincare with Exosomes: Bridging Aesthetic Science and Biotechnology for Regenerative Dermatology

2025

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (16/19)

Date	Sponsor	Title
20.44 2025	APTOS	Advanced Regenerative Aesthetics: Association of Third-Generation STIMM Hydroxyapatite with Exosomes and NAD+ in the Same Session
29 Mar 2025		Advanced Upper Facial Quadrant Structuring and Temporal Lifting with Hyaluronic Acid: The N3F Technique
	CLASSYS	The Art of Lifting and tightening: Mastering Global Standard Techniques
29 Mar 2025		Volnewmer: A New Era in the Monopolar RF. Review of the Theory and Demonstration of Clinical Cases
		Beyond the Essentials: How Ultraformer MPT is Transforming Aging Treatment
29 Mar 2025	DERMOAROMA	The Future of Regenerative Aesthetics: Bovine Colostrum Secretomes for Skin and Intimate Wellness
		Bioactive Secretomes in Aesthetic Medicine: How Purasomes Elevate Skin & Hair Regeneration

AMWC 2025 Key Industry Sponsored Symposia/ Sessions Information (17/19)

Date	Sponsor	Title
29 Mar 2025	JALUPRO	RETHINKING BIOREVITALIZATION - Biohacking collagen production with JALUPRO
29 Mar 2025	SCITON	Meet the World's Smartest Pulsed?Light Device - BBL HEROic by Sciton
		The Endless Evolution of Collagen Stimulators: Benefits of Liquid PCL
29 Mar 2025	DEXLEVO	Elevate and Illuminate: The Revolutionary Impact of Liquid PCL on Skin Lifting and Firmness
		Revitalizing the Body with Liquid PCL-based Biostimulator
29 Mar 2025	FILLMED	3 different lifting approaches
29 Mar 2025	ISKRA MEDICAL	ADVANTAGES OF THE TESLA FORMER

29 Mar 2025	QVENTIS	Why rheology matters in facial rejuvenation
		HA Polymeric Matrix: Biostimulator or Filler?
		Temple and Forehead treatment with RENÉE SMILE and RENÉE LIFT (live Injection)
		Lower Third Face Treatment in Male with RENÉE VOLUME
29 Mar 2025	SOLTA	Tighten & Brighten with Thermage® and Clear+Brilliant® – How can it benefit your clinic.

Date	Sponsor	Title
29 Mar 2025	VAIM GLOBAL	The PDLLA Breakthrough: Unlocking New Horizon for Subcutaneous Volume
		The Next-Level Solution for Wrinkle-Free, Youthful Hands (Live Demo)
29 Mar 2025	TAUMED	Karisma Exo Care - Innovative Skincare with Exosomes: Bridging Aesthetic Science and Biotechnology for Regenerative Dermatology

Noteworthy AI / ML presentations at AMWC 2025

Themes from key AI / ML presentations at AMWC 2025 (1/2)

- At AMWC 2025, AI and machine learning will revolutionize aesthetic medicine by enabling early diagnosis, personalizing treatments, enhancing educational experiences, and improving patient engagement with digital twins, 3D imaging, and AI-powered marketing strategies
- Check out the key AI / ML themes at AMWC 2025 below:
- AI in Early Diagnosis and Personalized Aesthetic Treatments:
 - AI-driven digital examinations demonstrate enhanced early neurodegenerative disease diagnosis and improve precision in aesthetic treatments like filler placements for more personalized care
- AI-Enhanced Aesthetic Education and Training:
 - Through gamified AI simulations in the metaverse, practitioners will gain advanced skills and training in aesthetic procedures, improving educational outcomes in the field
- AI in Patient Education and Regulatory Compliance:
 - Session will highlight how AI models will improve patient education, offering better communication aligned with FDA guidelines to ensure accurate understanding and adherence to treatment protocols

42

Themes from key AI / ML presentations at AMWC 2025 (2/2)

- Integrating Digital Twins in Clinical Practices:
 - AI-driven digital twins will be integrated into clinical practices, offering personalized treatment insights and advancing decision-making in aesthetic medicine
- AI in Drug Discovery and Marketing:
 - AI will revolutionize drug discovery for longevity compounds and enhance marketing strategies, helping practitioners improve patient engagement through AI-powered digital campaigns

Noteworthy AI / ML presentations at AMWC 2025

Notable Presentations Information At AMWC 2025 AI / ML (1/2)

Date	Author	Title Title
27 Mar 2025	Mikael COHEN	Potential Role Of Digitalized Examination In The Early Diagnosis Of Neurodegenerative Diseases
27 Mar 2025	THINNES Cyrille	FROM THE VIRTUAL METABOLIC HUMAN TO DIGITAL METABOLIC TWINS
27 Mar 2025	Alexander ZARGARAN	AesthetiSim: Delivering Gamified Aesthetic Education with 2D and 3D Simulation in the Metaverse
27 Mar 2025	Leeza AXELROD	Transforming Aesthetic Precision: Leveraging Al for Perfect Filler Placement
27 Mar 2025	Gemma TAVERNI	Revolutionizing Aesthetic Medicine with 3D Photo-Realistic Imaging
27 Mar 2025	Hasan BUYUKDOGAN	Comparative Analysis of a Novel AI Language Model, Oxkair, versus ChatGPT-4.0 and FDA Guidelines in Patient Education
28 Mar 2025	Andrea TOWNSEND- NICHOLSON	Embracing Technology: How To Incorporate Digital Twin Data Into Your Clinical Practice
